DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Claim 1 has been amended,

The prior art of the record, in particular **Kloeppel'703** does not teach the claimed supporting structure for a hydrodynamic bearing including, inter alias, the surfaces which forming the radial bearing portion is provided with grooves configured to generate a force in a thrust direction via a fluid located in the radial bearing portion so as to make cause an axial movement of either one of the shaft and the sleeve through relative rotation there between, the relative rotation being in a direction that causes axial movement of the sleeve in a direction that reduces a gap between the two facing members at the thrust bearing portion and one of the surfaces of the two facing members at the thrust bearing portion is provided with grooves which generate hydrodynamic pressure in the thrust direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Communication

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Iraj A Mohandesi whose telephone number is (703)305-3242. The examiner can normally be reached on M-F.

Art Unit: 2834

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nestor Ramirez can be reached on 703-308-1371. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)306-0377.
